FILE COPY ORIGINAL

Subject: E911 compliance

Gentlemen and Lady of the Commission,

Per your ruling on docket 05-196, Futurum Communications Corporation d/b/a foreThought.net provides the following information.

foreThought.net has provided full E911 service to each of our telephone customers since we began offering dialup service in June of 2004.

foreThought.net telephone service is VoIP over the 'last mile' only, and across specific physical infrastructure. End user systems are not mobile, so there is no danger of location ambiguity.

No change in our service provisioning is required to comply with your ruling.

Regards,

A handwritten signature in black ink, appearing to read 'Erik Kloeppel'.
